Many of you know me and have worked with me, many of you haven't. Those of you who have worked with me know me to be hard working, meticulous, and diligent. I like to take pride in what I do, and regularly work the galley. In doing so I always try to consider and anticipate the needs of my crew.

I want to carry that work ethic into representing you as one of your YYZ local VPs.

Throughout my career, I have always kept my finger on the pulse of our union and kept myself involved and informed. Above you can see how I have been officially involved.

I pledge to work hard for the membership and assist our local president in providing you with the best representation possible. I hope you will vote for me and give me that opportunity.

The most important part is that you do vote, that is our opportunity to affect who is representing us and the best way to stay involved.

I look forward to having the chance to represent you.

Look after yourselves, and look after each other.

Thank you,

SAL
