## Legs, Water, Lights & a Local Meeting!

### 2 Legs only please!

Just a reminder that under the terms of our new Collective agreement, any duty period which contains a flight leg scheduled to depart between 21:00 and 02:00 local time should not have more than 2 flight legs. (B2.10) Please report all violations to the union and/or crew scheduling so that the pairing can be reworked.

### Water, please!

In 1993, the United Nations General Assembly designated March 22 as the first *World Water Day*. 23 years later, *World Water Day* is celebrated around the *world* every year, so join the 2016 campaign to get informed, engaged and take action. We can make a difference in the fight to protect public water services and make sure everyone has access to clean water.

To mark World Water Day, CUPE has just launched a [one-hour water action workshop](#). It's an easy way to find out what we can do to fight privatization in our communities, and as part of the movement for safe drinking water for all Indigenous communities. CUPE is also re-launching a joint campaign with the Council of Canadians called the [Blue Communities project](#). Together, we're encouraging municipalities and Indigenous communities to pass resolutions that:

- Recognize the human right to water and sanitation
- End the sale and distribution of bottled water
- Reject water and wastewater privatization

[Find](#) your local Council of Canadians chapter, and make your community Blue.

### Air Transat flight attendants seek conciliation

The Air Transat flight attendants' union recently asked the federal government to initiate a conciliation process for ongoing negotiations. Approximately 1,750 cabin crew members have been working without a collective agreement since November 1.

### Got an hour?

Less than 3 months ago, leaders from 196 nations signed a historic agreement in Paris to take collective action on climate change, clearly showing that we are at a turning point in our fight
